

# Series 7000 (HR-36)

## Typical Roof Application

## Typical Wall Application

**Nu-Ray** Series 7000 is our architectural, face-fastened roof and wall panel system with excellent surface/shadow interest. The 7000 Panel System offers superior rigidity and design flexibility coupled with fast, easy installation. The system's long-spanning capabilities allow it to be applied over open framing or solid substrates. Complementary flashings and accessories are readily available from Nu-Ray.

Series 7000 panels are available in 26, 24 and 22 gauge in 24 vibrant **ULTRA-Cool™** Kynar 500 colors on a G-90 substrate as well as 26 and 24 gauge resin-coated Zinalume Plus. Color availability varies by profile and gauge. Not all colors are available in all profiles and gauges. Please consult your Nu-Ray representative.
